

Summer at Santa Catalina

2016 CLASS CHOICES • GIRLS ENTERING GRADES 3–6

COOKING

■ Petite Chefs — NEW!

Let's get cooking! In this class campers learn how to read recipes, measure, assemble *mis en place* and prepare delicious food while learning how to taste and adjust for flavor. Campers learn basic knife skills to make cooking safe and easy. They also explore herbs and spices to create new and exciting flavors. Most importantly, there is much fun learning the joy of cooking, sharing, and eating!

DANCE

■ Ballet - Performance Class

Beautiful ballet is a core foundation for all dancers. Join us to learn the fundamentals such as barre work, across the floor, and ballet vocabulary, or improve the ballet background you already have! Students will learn a full dance to perform at the end of their session to show off their accomplishments.

■ Hip-Hop - NEW Performance Class!

Have a blast in hip-hop class! Campers learn a selection of dance moves and hip-hop styles and then put the moves together in a dance to be performed on stage at the close of camp.

■ Jazz - Performance Class

Ready for some high energy dancing? Whether campers bring their jazz shoes or jazz hands you will kick off the summer with fun music and great choreography. A lively and vigorous dance performance is the end project, performed at closing day. Expect finger snapping and plenty of toe tapping from the audience.

MOVIE MAKING

■ Adventures in Animation

Make your drawings come alive! Learn stop-motion animation technique and how to create a short animated video. Campers use their own art and story, a Mac computer, and a digital camera for your project. Bring your creativity and vision!

Supplies: Please bring any photographic digital camera.

PHOTOGRAPHY

■ Digital Photography

Do you love taking pictures? Is it a favorite thing to do? If yes, then this is the class to take! Spend summer exploring the beautiful gardens on campus, taking photographs of flowers, trees, and architecture. Learn how to use the computer to enhance, manipulate, and print pictures. The possibilities are endless! Bring a point-and-shoot digital camera and a 16GB thumb drive.

OUTDOOR EXPLORATION

■ Earth to Sea

Explore the beautiful Monterey Peninsula from the mighty redwood to the ocean shoreline when marine biology meets outdoor explorer in this two-period class. This is a fun and fantastic class that entertains and teaches at the tide pool and the flower field. Classroom days are spent with activities, crafts, and nature games as a way to introduce not only the flora and fauna that share our coastal home but the beasties, including the outrageous otter and the creepy crab. Bring sunscreen and a day pack because this is "surf-to-turf" field studies.

SCIENCE

■ Little Roboto

Campers become young engineers as part of a LEGO-based beginning robotics team! In this inquiry-based class, campers hone their innovation and imaginative abilities in learning how goals drive the design, structure, and function of LEGO Mindstorms robots. With particular emphasis on goal setting, teamwork, patience, and critical thinking, campers spend one hour each day brainstorming and building. The class culminates in a final robot design capable of completing the team's desired tasks. An exciting way to build a passion for science and engineering!

THEATRE ARTS & MUSIC

■ Glee Club / Show Choir

Calling all young performers to sing and dance with friends old and new! In this class, campers learn the fundamentals of ensemble performance. Give life and expression to favorite songs while moving around the stage to entertain friends and family at the closing performance.

■ Ready, Set, Act!

What does it take to act? Body exercises, games, voice projection, and improvisation are used to challenge the imagination and focus observation. Being on stage is all about teamwork and overcoming inhibition. Taught by a professional actor and theatrical performer, this class is a young actress's best choice!

VISUAL ARTS

■ **The Art of Giving — NEW!**

Receiving a present is fun but giving a gift is an art. Presents made by hand are magical and have the secret ingredient called love. Create one of a kind gifts from funky to unique from flip flops to jewelry. Copper enameling, custom buttons, games and hair swag are some of the projects on the table and in the heart.

■ **Art Puppets — NEW!**

Inspired by the work of Paul Klee, campers fashion hand puppets from papier-mâché, string puppets from painted paper, and shadow puppets from old fabric. Fabricate, cut, paint, glue, and color 1 to 3 dimensional figures that tell a story with laughter and smiles. Campers perform for the class, capturing it all on video, to share their vision with family and friends.

■ **Creative Journaling — NEW!**

Make beautiful personalized journals with collage, paint, pencil, and layering techniques that merge art with writing. These personal, expressive pages capture everything from the imagination to feelings about the big, wide world around you. The class ends with “The Box Project,” which shows who campers are on the inside and how the world sees them on the outside.

■ **We ♥ Ceramics — NEW!**

Get messy, get creative, and learn the ancient art of ceramics! Working with clay, campers make wall planters, pebble pots, wind chimes and more. Add exciting texture to pieces with tools, twigs, and nature. Then, glaze the projects and give wild personality to the creations.
